JULES HAUEL'S
PREPARATIONS!
TRY THEM, AND JUDGE FOR YOURSELF!
TO THE PUBLIC.
*Wonderful! That's Right — A proper Principle adopted.*

YOU cannot object to giving my articles a trial. If they are not found to be as represented, return them and your money shall be cheerfully refunded.—Remember there is no quackery — no humbug — about it at all we'll quit you nothing — see if any one is humbugged, it will be myself. With the utmost confidence I recommend to the particular attention of the public the following articles I use—

MY EAU LUSTRAL HAIR RESTORATIVE

This universally approved and admired article, free from ardent spirits pungent essential oil, and other destructive matter — cleanses the hair expeditiously — renders it beautifully bright and supple to it the delicate fragrance of the flowers. It carries the scalp in a new and vigorous action — cleanses it from scurf and dandruff — and its effect in the restoration and growth of the hair is unequalled by any other preparations of the kind. Second—

MY EAU DIVINE DE VENUS AND NYMPH SOAP

*Composed of an Eastern Botanical Discovery of Surprising Efficacy for rendering the SKIN SOFT AND FAIR, as well as unparalleled Delicate Bloom Due to the Complexion.*

No lady's toilet is complete without this article. Its effect on the skin is strikingly beautiful. It removes all harshness — clears the complexion, and leaves a delicate rose tint that cannot be surpassed. Third—

MY SHAVING CREAM.

It is a luxury to shave with Jules Hauel's Premium Cream."

This Cream is acknowledged by all who have used it to be superior to any in use. It produces a fine and rich lather. It does not smart as ordinary soaps do, and the skin is left in a very soft and highly emollient. No person will use any other after once being this unrivalled preparation. Fourth—

MY DEPILATORY POWDER

This Powder has never failed to produce the desired effect. Its composition is infallible and warranted to remove superfluous hair. It may easily be used by any who were afflicted with hair on the sides of the face, arms &c. giving a masculine tute to the features, and who testify of its happy effect. Fifth—

MY CELEBRATED VEGETABLE LIQUID HAIR-DYE

*A Chemical Secret to enable persons to dye their hair in a few minutes, instantaneously without the least inconvenience.*

My white hair has been changed into black by using one box only of Jules Hauel's celebrated Vegetable Liquid Hair Dye."

For changing to dark grey hair, whiskers and beard to a brown black or chestnut color. The slightest evil consequences need not be feared from its use — it is perfectly harmless. This composition is the only one at present known to the science of chemistry to dye, in a few minutes, human hair, the various shades of color, without danger or inconvenience, and has received the most liberal patronage and unlimited confidence of the public.

☞ *Beware of Counterfeits!* Ask for "Jules Hauel's Vegetable Liquid Hair Dye," if you want the genuine article. Sold by

J. W. FLETCHER,
No 19 Main Street.

MY UNRIVALLED ROSE TOOTH PASTE,

Is an unusually superior article for the purity which causes it to give the Teeth, without the slightest injury — Seventh—

MY CELEBRATED PERSIAN OR CHINESE POWDER

*Patronized by the Fashionable World of the United States and under the immediate patronage of the Ladies.*

This powder is so qualified for the nursery, for removing, cleansing and preserving the complexion, rendering the skin a delicately white smooth pearl like, preventing cutaneous eruptions, chapping and obviating the copious perspire on. Travellers and residents in warm climates will highly appreciate this powerful advantage to the toilet.

NINE HUNDRED DOLLARS REWARD

Will be paid to the person who will prove that Jules Hauel's *Vegetable Liquid Hair Dye* is not the best,—the very best article known in this country or Europe.—This valuable liquid never will enable a person to dye instantaneously the hair whiskers, in a few minutes, with the least inconvenience. This preparation is warranted not to wash out — nor to injure the health of the head — and is of a softness and brilliancy

*From the Second Chemist of the City of Philadelphia*

"I have made a careful analysis of the contents of the bottle you have handed me, purporting to be one of your *Jules Hauel Hair Restorative*. I have been especially struck with its delightful fragrance, and have no hesitation in saying, that I believe it to be the most valuable and extraordinary preparation ever known for restoring and preserving the hair. On the first appearance of a few gray hairs, I would recommend the use of Jules Hauel's Vegetable Liquid Hair Dye, as I most sincerely believe that by its use the original color of the hair will be restored, and that it will not injure the health of the skin, as many other dyes are known to do. Yours &c.

Mr JULES HAUEL

Try it! Try it! It is furnished Gratis!

The most positive and convincing proof of the superiority of any article depends on the favor and satisfaction it has given to those who have used it — What Public Opinion Stamp of Genuine is always used by those of fraud and who everywhere meet with merited approbation.

Those persons who have not made use of this desirable article will oblige me by calling at the Store of the Proprietor No 19 MAIN STREET, where with out charge a small box for trial, I am determined to let nothing be wanting for the accommodation of the public.

Prepared and sold *Wholesale and Retail*, by
JULES HAUEL, Practical Chemist and Perfumer.

☞ *Extract from the Report of the Judges of the Franklin Institute of Pennsylvania.*

After a minute and careful examination of the preparations submitted to our notice by Jules Hauel Chemist and Perfumer of the city of Philadelphia we do not hesitate to pronounce them truly valuable preparations well calculated for the toilet."

READ THE CERTIFICATE

The Franklin Institute of the State of Pennsylvania for the Promotion of the Mechanic Arts, have awarded to Jules Hauel of Philadelphia their Testimonial of their approbation for the skill and ingenuity displayed in the manufacturing of his celebrated Eau Lustral Hair Restorative and other perfumery exhibited at their late Exhibition of Domestic Manufactures in the city of Philadelphia.

From CONSTANT GUILLOU, Esq Attorney at Law, and Notary Public Philadelphia

From personal acquaintance with Jules Hauel — as experienced and fashionable Perfumer and Chemist — I was prepared to appreciate the numerous testimonials in favor of his different fashionable preparations. On a trial of them in my own family and some of them personally, I have more than realized those favorable anticipations — they are what they profess to be, scientifically prepared and compounded. I have at all times made my experience been ensured of the great merit of his *Eau Lustral Hair Restorative, Shaving Cream, Nymph Soap* and in fact, all the popular preparations of M. Hauel

and to the greatest pleasure that I can recommend the above articles to all of my numerous friends, and the public. These are, in their way invaluable

CONSTANT GUILLOU

From Daniel J. Dechesne Esq Attorney at Law, Consul General of Portugal at Boston Vice Consul of Austria Sardinia Portugal and Tuscany

To Mr. Jules Hauel

Sir Though I have not the pleasure of a personal acquaintance with you yet a sense of duty to yourself and the public does oblige me to bear my unbiassed testimony in favor of your different fashionable preparations. On trial of them in my own family, and some of them personally I do positively declare that they are what they profess to be, strictly prepared and compounded. I am convinced of the great worth of the *Eau Lustral Hair Restorative*, *Shaving Cream*, *Nymph Soap* and *Rose Tooth Powder*. I am fully convinced of the superiority of your articles over any I have ever used, and can recommend them to all for the use and support of their genteel patronage. Nothing can excel the beauty and lustre imparted to the hair by the use of the *Eau Lustral Hair Restorative*. It not only restores the hair and prevents it from falling off, but makes it grow where there is a total failure to use them. Yours &c.

**RUST PROOF IRON,**
FOR
*ROOFING WINDOW SHUTTERS &c*
THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES, said to the many advantages which they possess over all metals and other substances hitherto used for this purpose, possessing as they do, the strength and lightness of iron without its liability to rust having now been tested several years, both in this country and in Europe They are also less subject to expansion and contraction from sudden changes of the atmosphere, than common Tin Plate Iron, Zinc &c, or any other metal now used for roofing and consequently form a much better and tighter roof requiring far less frequent repair whilst the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus protected can be applied In general terms it is applicable to all articles of iron which is desirable to protect from the action of the atmosphere And they would especially call the attention of those interested in TELEGRAPH LINES to their Galvanized Wire which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity (costing only about one half as much as copper, and possessing equal durability with that metal

Having lately erected works in this city for the purpose of galvanizing Nails Spikes Bolts Wire &c., they will be able to furnish any article which may be desired A supply of Plates (manufactured in Europe), constantly on hand, from 16 to 32 wire gauge

THESE and many other diseases of this valuable medicine is used FOUR times as much now as ever This is because that not only PHYSICIANS but the public know it by experience, to be FAR the BEST, and therefore give it their united preference to any other preparation or form of Sarsaparilla

**Kelley & Co.'s Sarsaparilla**
is so strong and so certain to do good, but more than all as known to have performed so many astonishing cures of DYSPEPSIA—of SCROFULA and of every form of RUN DOWN CONSTITUTION that it has in spite of every opposition which self interest or malice could devise, won its way to the favor of PHYSICIANS and the public in all STATES of the UNION in a very short time

Try it! Try it! Let not the frequent disappointments which you meet with in the use of other articles, deprive you of the ALL HEALING and HEALTH-RESTORING power of this MEDICINE!

CANADIAN VERMIFUGE!
*A CERTAIN REMEDY FOR WORMS*
THIS remedy is safer than any other and more easily administered than any other

THE GREATEST CAUSE OF DEATH is among children to be attributed to Worms The parent is also aware of the existence of worms in bowels, *the lives of many children would no doubt be saved* Some of the symptoms are as follows the countenance is of a pale or leaden color and inclined with occasional flush of the eyes are heavy and dull Bad breath, rising of the stomach the stomach and bowels disordered the patient often awakening in great fright, and is able to assign no cause for it Tumbling about in bed grinding the teeth, and sometimes convulsions and at other times feverish symptoms

*Winer's Canadian Vermifuge* has acquired a reputation unrivalled by any other medicine of the kind, and is daily receiving testimony of its efficacy is known and used in as universally approved as possessing a properties which no other article of the kind does *more prompt and efficient* in its action and entirely free from ingredients which have any but a beneficial effect, the health of the patient being always improved even when no worms are discovered Physicians prescribe it, and to use the language of one in high standing "who resides in Cleaveland Ohio, considers it the only article of the kind he ever saw that was so uniform and prompt in expelling worms it may indeed be relied on with the utmost confidence, as it has *never been known to fail* this is the reason why *all* who have us d it will not use any other

We have in our possession a number of certificates from physicians and others of the highest respectability who all testify to its superior efficacy and recommend it as a safe and efficient remedy

*READ AND BE CONVINCED*

We the undersigned have severally administered Winer's Vermifuge prepared by Mr John Winer of this city, the genuine of J Winer's and can conscientiously recommend it as a safe and efficient remedy for the expulsion of worms from the intestinal canal G GRIFFEN

### Fuller's Computing Telegraph.

The Author and proprietor of the above computing Telegraph and the proprietor of Palmer's computing scale book of which woo ts are upon one care is now in this city for the purpose o disposing of these ingenious and beautiful works. He stops at the Bangor House and will call upon our citizens.

The following article recently appeared in several of the Boston papers:

FULLER'S COMPUTING TELEGRAPH

*Land during the Computing Scale and Time Telegraph*

This most ingenious and useful production need but to be known to be appreciated. Its power in solving Arithmetical and Geometrical Problems—enabling a person to solve a dozen difficult problems with absolute precision in a single minute—is wonderful. Its leading characteristics are simplicity of operation and accuracy and rapidity in attaining results thus saving time and labor, and avoiding numerous perplexing errors. Its great practical usefulness to the mercantile and trading community in working the equation of Payments Average of Accounts Computing Dividends and Interest testing the accuracy of balances, ascertaining sums total in intricate and extensive transactions, and its unfailing capacity in the detection of errors render it a most invaluable companion to the man of business. Nor is it less useful to those engaged in the various mechanical pursuits. With its assistance the most complex processes of Measuration will become merely pleasant exercises of the mind, enabling the mechanic and artificer to arrive at the desired results with a rapidity of execution which cannot help but surpass the accuracy of the computations. To them it will be found a safe guide, an agreeable instructor and a profitable labor saving machine in solving all those multifarious arithmetical calculations which enter into the daily and hourly avocations of the mechanical and industrial classes. In all those whose duties call for frequent and exact computations in monetary transactions—such as Bankers Brokers Insurers Underwriters &c &c—it will be invaluable enabling them to perform in half an hour a mass of calculations which under the ordinary processes would consume a week. To Attorneys Notaries, and other professional men it would constantly be useful in calculating Interest Insurance Averages, Dividends of Estates Poundage &c as well as in those departments of computation of a more general nature which are constantly claiming the attention and taxing the time and patience of the learned professions.

To Instructors and Students, in schools and colleges, who have occasion to solve the most abstruse as well as the more simple problems in every department of mathematics the Telegraph will be found not only a ready reckoner, but a fruitful expounder of all the rules of the science of numbers. It will not only help the student to find signs and work out his problems with their clue of thought but will enable him to *see through* the process by which he arrives at the results. Thus its use will be an invigorating source of mental discipline to all. In this regard it recommends itself to Young Men, who are pursuing arithmetical studies, or preparing for active pursuits or who desire to give point and precision to their intellectual powers by mathematical discipline. The fact that a score of problems may be solved by it in one minute and the mode of solution communicated to and understood by the mind of the user not merely renders it an extraordinary contrivance or practical purposes but an admirable means of mental training. The idea that the Telegraph will tend to weaken the mind by causing it to rely upon mere mechanism to make its numerical computations, will be scouted when it is remembered that the making of figures is purely a mechanical operation while the mental labor consists in educing accurate results from given statements, according to precise rules—the very process through which the mind is carried in the use of the Telegraph. And this has induced many of the most intelligent teachers to place it in the hands of their pupils. In a word of the ten thousand patrons of this work embracing men in every department of business and every rank in life, while perhaps a majority have purchased it for practical use a large proportion are using it because it combines entertainment with discipline, and opens the shortest road to a perfect mastery of the science of numbers thus affording pleasure and profit to all who under any circumstances have occasion to employ the nine digits.

*Brunswick Aug 23, 1847*

I have examined Mr Aaron Palmer's Endless Self computing Scale and regard it as a highly useful invention. It is admirably adapted to the ready computation of Taxes Interest Averages the mensuration of superfices and solids and other similar operations. It will in my opinion be a very valuable assistant to men of business generally in the expeditious solution of the vast no arithmetical quests as they may have occasion to solve and the mind also a ready test of the accuracy of the results obtained in the performance of such questions by the usual operation upon numbers. It will likewise, I think be found useful to the student in fixing more strongly on the mem ry the various formulas and rules employed in the calculation of arithmetic

### Washington Guards.

The Washington Guards, the youthful men who years ago formed a juvenile company in our city under the command of Master Charles Hayes and who at that time won a full approval for their military discipline and orderly appearance have recently come together forming a full battalion for the purpose once more of trying their skill in military tactics and friendly competitorship.

On Wednesday evening they partook of a supper at Market Hall provided in a neat manner and excellent style by Mr Nathaniel Goodwin. There was present at the table a number of invited guests among them Capt G W Patten of the U S Army Col W H Mills, William Bartlett Esq and others.

After partaking of an ample and agreeable repast Capt Hayes addressed the company in a classic speech relative to the delightful reminiscences of by gone times. He read from a number of the Merchants and Farmer quite a full account of their grand celebration on the 4th of July 1838, a description of the presentation of the Banners by Miss McCrate and her associates and the address by her delivered, and the reply of Master Jerome.

He then alluded to Capt Patten in a highly complimentary manner as the hero of Cero Gordo, and gave as a sentiment—

*The army and navy of the United States*—They have shown by their bravery and patriotism, that our country is Our country right or wrong.

Capt. Patten arose and after expressing his sense of the high compliments bestowed on him, added, nearly as follows:

You are assembled to night to citizen fellowship to commemorate the period of your former military association—that period when the youthful blood ran rapid and the youthful heart beat high. As the reminiscences of the past is pleasant, so may your prestiges of the future prove fortunate. Allow me to propose as a sentiment

*The Ranger Washington Guards*—Their boyhood was marked by ardent military inspiration a state criterion should their services be demanded, that their manhood will be crowned by deeds of valor.

Addresses were made by Col. Mills, Lieut J A. Jerome and others.

By Lieut E W Flagg—*The Citizen Soldier*—The right arm of our national defence.

By Sergeant G C Pickering—*The Ladies of Bangor*—The stars of the night the pets of the morn
The dew drops whose lustre illumine the thorn,
And rayless that night is, that morning unblest,
When no beam from their eyes lights up peace in the breast.

And adorned by the boys or unwreathed with the willow,
Woman's smile is our meed and her bosom our pillow.

By Capt Hayes—*The liberties of the Press*—Foremost in the cause of Liberty and Independence.

By S F Dawson *The B. W Guards*, and the "Bloody 9th," While the former revel in the Halls of the Queen City of the East, may the latter revel in the Halls of the Montezumas."

By Private O Moore—*Santa Anna's rubber leg*—When that starts off another race, may the Washington Guards be foremost in pursuit.

By Private T A. Lubey. Capt. *C H Hayes of the Washington Guards*. May he be as successful with *them* as he has been with *Santa Anna*.

By Capt Hayes. *The Mayor of the City of Bangor*—Not first in war, nor first in peace, but *first* in the hearts of his fellow citizens.

The several addresses and speeches were interspersed with music from the Brass Band which performed admirably.

The company separated after having enjoyed a season of social hilarity, highly pleased with the occasion, and after marching to the Mayor's dwelling and paying him a salute they were dismissed.

They paraded on the day for target shooting and made a good display, and were quite successful in the accuracy of their aim.

☞Our town yesterday came in showers. First we had it by the regular mail. The Penobscot arrived about seven o'clock, bringing a little more and then about ten o'clock came the Governor bringing still later intelligence. A portion of our city subscribers received the whole while the following news was inserted after a part of them were served with the paper, and therefore we publish it again to day.

### Telegraphic Despatch to the Boston Traveller.

New York, October 13, }

### RUMORS FROM MEXICO.

There are reports in circulation—where, it is not said probably at Vera Cruz—that Gen Scott has had a fight with the rabble in the city of Mexico and been compelled to retire to the citadel.

It is also reported that Santa Anna has returned to the capital with an army of 10,000 men, for the purpose of attacking Gen Scott, and that at the last accounts, the Mexican General was firing on the city.

Another report is, that Gen Rhea has defeated the American forces at Puebla and retaken the city.

## Pennsylvania Election.

Harrisburgh borough has given Irwin a majority of 46, being a Whig gain of about 400. In Carlisle District the Locofocos gain a member, 173; in Reading, there has been a Locofoco gain of 22. In seven townships in Lancaster, Irwin Whig has 704 majority, in Pottsville, 229, Port Carbon, 22.

In Schuylkill county the Whig gain is 150. The returns thus far are considered rather favorable to the Whigs.

## A FULL AND AUTHENTIC ACCOUNT OF THE GREAT BATTLE OF CHURUBUSCO

Concluded.

The next was nearly the same except that the ground was if possible worse than before, as the Mexicans had blockaded it up with large stones rolled down from the neighboring hills. This night we encamped at a most beautiful grove, of impenetrable and accommodating concealment from the enemy. In the town as well as in Chulco there are still standing the churches of the Indians where the Aztec worship was celebrated before Cortez had introduced the religion. They are large and sombre edifices, differing but little from the churches of the country, and being near the city, are said to have been formerly resorted to by the natives kings.

The next day we arrived in sight of the rest of the army, and hear the guns with which Worth was breaching the walls of San Antonio. That night the news of the death of Captain Thornton of ours as the last account, a fine officer and a thorough gentleman, but was always unfortunate in his military career.

On the morning of the 19th, we left the little village where we heard this sad news and took the road to San Juan about seven miles to the west, and only about ten miles from the city. While we halted here, we heard the sound of Gen Worth's guns who was said to have attacked San Augustine, a village three miles nearer the capital, where Santa Anna was said to be with 20,000 men. When we arrived at San Juan the men were told to sling their blankets across their shoulders, put their knapsacks on their wagons, and to put two days bread and beef into their haversacks. When this order came all knew that the time had come. The officers arranged their effects, put on their old coats and filled their haversacks and flasks. Soon we were all ready for any thing but a short one. We here heard the position of the enemy, which was as follows: Santa Anna with 20,000 men was at San Augustine, Valencia with 10,000 men was at the so called Contreras, which commanded another road parallel to the San Augustine road but which led into it between the city and Santa Anna. Near, by eight o'clock, if we could whip Valencia, we could go down the road and thus get in between Santa Anna and Mexico, and whip him up. Gen Worth supported by Gen Quitman was to keep Santa Anna employed, while Twiggs backed by Pillow was to try and attack Valencia, which, you will see, he did very effectually. Pillow, with some of the 2d regiments, was to cut the road. We left San Juan about one o'clock, not particularly delighted at the night so late in the day, but still of thinking it no case we could hasten up reinforcements. About two P M, as we had crawled to the top of the hill, whither we had been directed, pulling Magruder's battery and the mountain howitzers we suddenly espied Valencia fortified on a hill at the two hundred yards off and strongly enforced by a column which had just come out of the city. We laid down to remove drawing their fire, while the battery moved out at a full gallop. Just then Gen Smith hastily were riding out—For word the Rifles—to support the battery. On they went, till we got about eighty yards from the work, when the enemy opened upon them with his long guns which were afterwards found to be seven or eighteen inch howitzers. The ground was the worst possible for artillery, covered with rocks large and small, prickly pear and cactus, intersected by ditches filled with water and lined with maguey plant, itself impervious to cavalry and with patches of corn which covered the enemy's skirmishers, while it stopped our own passage. The artillery advanced but slowly under a tremendous fire, which gradually pointed it before it could be got into range and the thick nature of the undergrowth caused skirmishers to be thrown forward to lose their relative position as well as the column.

At last four the battery got in position under a most murderous fire of canister and round shot.

The enemy's works were on a hill side, behind which rose other and slightly higher hills, separated by deep ravines and gullies and intersected by fine ones. The whole face of the country was of soft clay, which rendered it almost impossible to advance. We formed our line about a quarter of a mile from the enemy's works, Riley's brigade on our right. At about four we started, wading through a thick orchard which effectually concealed us, even had it not been dark, debouching into a deep ravine which ran within about 600 yards of the work, and which ran us directly in the rear and out of sight of their batteries. At dawn of day we reached our place, after incredible exertions, and got ready for our charge. The men threw off their woollen blankets and looked to their pieces, while the officers got ready for a rush and the first simple head-on fierce for twelve hours, had not but little good for the Mexicans. On the right and opposite the right of their work was Riley's brigade of the 2d and 1st infantry and 4th artillery, next the rifles, then 1st artillery and 3d infantry. In the rear on our left was Cadwallader's brigade in rear as a reserve, the whole division under command of Gen Smith in the absence of Gen Twiggs. They had a smooth place to rush down on the enemy's work, with the brow of the hill to keep under until the word was given.

At last, just at daylight, Gen Smith slowly walking up, asked if I was ready. A look answered him. "Men, forward." And we dashed. Springing up at once Riley's brigade opened, when the crash of a hundred rifles told that the Mexicans from their entrenchment had they opened their fire. Leaping first for one moment at close that they overshot us, and before they could turn their pieces on us, we were on them. Their such cheers arose as you never heard. The men rushed forward like demons, yelling and firing the while. The carnage was frightful, and though they fired sharply, it was of no use. The earthern parapet was cleared in an instant and the blows of the stocks could be plainly heard mingled with the yells and groans around. Just before the charge was made, a large body of anchors came winding up the road, looking most splendidly in their brilliant uniforms. They never got to the work, but turned and fled. In an instant all was one mass of confusion, each trying to be foremost in the flight. The road was literally blocked up, and while many perished by their own guns, it was almost impossible to fire on the mass, from the danger of killing our own men. Some fled up the ravine, on the left, or on the right and many of these were slain by turning their own guns on them.

Towards the city the Rifles and 3d Infantry led off the pursuit. Seeing that a large crowd of the fugitives were jammed up in a pass in the road, some of our men cut through a corn field, and by this heading them off and firing down upon them, about 30 men took over 500 prisoners, nearly a hundred of them officers. After disarming the prisoners, as the pursuit had ceased, we came back to the fort, where we found our troops in full possession, and the rout complete.

We found that the enemy's position was much stronger than we had supposed, and their artillery much larger and more abundant. Our own loss was small, which must be accounted for by their perfect surprise at our charge, as to them we appeared as if rising out of the earth, so unperceived was our approach. Our loss was one officer killed, Capt Hanson of the 7th Infantry, and Lieut Van Buren of the Rifles, shot through the leg, and about fifty men killed and wounded. Their force consisted of 8000 men under Valencia, with a reserve which had not yet arrived, under Santa Anna.

Their loss, as since ascertained, was as follows:—Killed and buried since the fight, 750; wounded 1000 and 1500 prisoners, exclusive of officers, including four generals, Salas, Nendozini, Garcia, and Guadalupe, in addition to forty odd colonels, Majors, Captains, &c. We captured in all, on the hill, 22 pieces of cannon mostly eighteen pounders two long 18, three long 16, and several of 12 and 8 inches, and also the two field pieces captured by the Mexicans at Buena Vista, taken from Captain Washington's battery at the 4th Artillery. The first officer who saw them happened to be the officer of 4th selected by Gen Scott to command the new battery of the regiment, Capt Drum. In addition were taken an immense quantity of ammunition and muskets, in fact, the way was strewed with muskets, escopets, lances, and flags of all sizes. Large quantities of horses and mules were also captured, though numbers were killed.

Thus ended the glorious battle of Contreras, in which 2000 men, under Gen P F Smith, completely routed and destroyed an army of 8000 men under Gen Valencia, with Santa Anna and a force of 20,000 men within five miles. Their army was so completely routed that not 1500 men rejoined Santa Anna and participated in the second battle. Most people would have thought that a pretty good day's work. Not so. We had only saved ourselves, not conquered Mexico, and men's work was before us yet.

At 8 A M, we formed again, and General Twiggs having taken command, we started on the road to Mexico. We hardly marched a mile before we were sharply fired upon from both sides of the road and our right was deployed to drive the enemy in. We soon found that we had caught up with the retreating party, from the very brisk firing in front and we drove them through the little town of San Angelo, where they had been waiting to force. About half a mile from this town, we entered the suburbs of another called San Catharina, when a large party in the church yard fired on the head of the column. And the balls came right among us. Our men kept rushing on them, and cutting them down, until a discharge of grape shot from a large piece in front drove them back to the column. In this short space of time five men were killed ten taken prisoners, and a smaller one captured, which was all the rest of the day.

Meanwhile Gen Worth had made a demonstration on San Antonio, where the enemy was fortified in a strong hacienda, but they retired on his approach to Churubusco, where the works were deemed impregnable. They consisted of a fortified hacienda, which was surrounded by a high and thick wall on all sides—inside the wall was a stone building, the roof of which was flat and higher than the walls. Above all this was a stone church, still higher than the rest, and having a large steeple. The wall was pierced with loop holes and so arranged that there were two tiers of men firing at once and four ranks were formed on each range and placed at such a height that they could not only overlook all the surrounding country, but at the same time they had a plunging fire upon us. Outside the hacienda, and completely commanding the avenues of approach, was a field work extending around two sides of the work and protected by a deep wet ditch, and armed with seven large pieces. This hacienda is at the commencement of the causeway leading to the western gate of the city and had to be passed before getting on the road. About 300 yards in the rear of this work, another field work had been built, where a cross meets the causeway, at a point where it crosses the river, thus forming a bridge head, or *tete de pont*. This was also very strong and armed with three very large pieces of cannon. The works were surrounded on every side by large corn fields, which were filled with the enemy's skirmishers so that it was difficult to make a reconnoissance. It was the case decided to make the attack immediately as they were full of men and extended nearly a mile on the road to the city, completely covering the causeway.

The attack commenced about 1 P M. Gen Twiggs's division attacked on the side towards which they approached the fort, the opposite the city. Gen Worth's attacked the bridge head, which he took in about an hour and a half, while Generals Pillow and Quitman were on the extreme left, between the causeway and Twiggs's division. The Rifles were on the left, and in the rear of the work, entrusted by Gen Smith with the task of charging the work in case Gen Pierce gave way. The firing was tremendous—in fact one continuous roll while the combat lasted. The enemy, from their elevated position, could readily see our men, who were unable to get a clear view from their position. Three of the pieces were manned by the Deserters, a body of about 100, who had deserted from our army during the war. They were enrolled in two companies commanded by a deserter, and were better disciplined and disciplined than the rest of the army. These then fought most desperately, and are said not only to have shot down several of our officers, whom they knew, but to have pulled down the white flag of surrender no less than three times.

The battle raged furiously for about 3 hours when both sides having lost a great many, the enemy began to give way. As soon as they commenced retreating Kearney's squadron passed through the *tete de pont* and charging through the retreating column, caused them to the very gate of the city. As they got within about 500 yards of the gate, they were opened upon with grape and canister, and several officers wounded. Among the number was Capt Kearney, 1st dragoons who lost an left arm below the elbow. Lt Graham of New York, received a severe flesh wound in the left arm. Capt Mc Reynolds, ditto. Our loss in this second battle was large. We lost in killed seven officers, Capts Cooper, Burke, 1st artillery, Lts Irons, Johnson, Hagman, Capt. Anderson, Lt. Easterly, 2d Infantry, Capt Hanson, 7th infantry, Lt Irons died on the 20th, Col Butler of South Carolina, and about 30 officers wounded—exclusive of the volunteers. The official returns give our loss as killed and wounded at 1850, besides officers. The Mexican loss is 500 killed in the second battle, 1000 wounded, and 1100 prisoners, exclusive of officers. Three more generals were taken, among them Gen Alcozen and Anaya, the provisional President, also 15 pieces of cannon, and an immense amount of ammunition and stores. Santa Anna in his report, states his loss as killed, wounded and missing, at 10,000. His own force was 20,000, which he gives as his force on the 20th, in both actions.

Thus ended the battle of Churubusco, one of the most furious and deadly, for its length, of any in the war. For reasons which he deemed conclusive, Gen Scott did not enter the city that night, but encamped on the battle field, about four miles from the western gates of the city. The next day a flag of truce came out, and propositions were made which resulted in an armistice.

Meanwhile the army is encamped in the villages around the city, recruiting from their fatigue and nursing the sick and wounded. There are but few sick, and the wounded are getting along comfortably in their hospitals.

## BY THE LAST MAIL

### Steamer John Marshal.

We learn from a passenger who left Boston in the Marshal last evening at 5 o'clock, that the storm came on about 10 o'clock, and continued to increase until it became a perfect hurricane, at which time an effort was made to put the boat into Wood Island but not succeeding her pumps was altered and run for the Cape Lights, but the weather being so thick the lights could not be seen, and there being a tremendous sea, had to put her head to it, and run again for Wood Island, and in thus running they were compelled to throw over several thousand dollars worth of freight to save the boat and lives of the passengers. The boat fortunately, after suffering considerable damage arrived safely at Wood Island, about 4 o'clock this morning.—Portland Umpire of Wednesday.

The Umpire also states that a new ship built by Maj Waterhouse, of Scarborough, came out of the river yesterday, and last night went ashore during the blow, on the beach at Saco and lies partly buried in sand. She will be got off without much damage.

☞The temporary dam at Lawrence gave way on Tuesday, doing considerable damage. One man had his leg broken, two men are missing, supposed to be drowned.

☞Mr Creech and his Soap and Razors. The Hong Kong Patriot notices our friend Mr Creech in a very complimentary manner, as will be seen below. We endorse all the Patriot says, in respect to the establishment of Mr Creech, and to those unparalleled instruments, the Damascus and Kezan by the aid of which he always cuts and shaves so smooth and clean.—[Boston Traveller.

"We have some time been in the habit of visiting his establishment and what we say we know. He is located in a central place close by the business streets of the town, and his room is furnished in most luxurious style. His attendants are always attentive, polite and skilful.—Creech himself is a gentlemanly man, and understands his business. With regard to the famous Damascus Razors, we can say, from experience, they are all they are represented to be. We have used one now eight or nine months without honing, and it does the work well. For Kezan Soap every one has heard of, and every one who has used it once will use it always."

☞See his Card in another column.

☞MISS NYHAN would respectfully make known to the citizens of Bangor that she has returned, and is now ready to form her FRENCH CLASSES. She would invite those desirous of joining them to give her an early call. Sept 30.

☞SPECIAL NOTICE.

The extraordinary GRAEFENBERG PILLS, which are achieving unparalleled triumphs in various sections of this country, are now introduced into this vicinity—Let every sick person read the advertisement of the Graefenberg Company, which will be found in another column.

For sale in Bangor, by D BUGBEE, Agent.

INFLAMATION OF THE EYES, like all inflamation, is caused by impurity of the blood. *Wright's Indian Vegetable Pills* will be found a *certain cure* for the above painful malady because they purge from the body those corrupt and stagnant humors which are the cause not only of inflamation of the eyes but of every description of disease. From three to six of the above named Indian Vegetable Pills, taken every night on going to bed, will in a short time completely rid the body in everything that is opposed to health, and therefore will most assuredly make a perfect cure of inflamation of the eyes, and at the same time the blood and other fluids will be of such a healthy quality that disease of any kind will be impossible.

Beware of Counterfeits of all kinds! Some are coated with sugar, others are made to resemble in outward appearance the original medicine. The safest course is, to purchase from the regular agents or by one or more of whom may be found in every village and town in the State.

The genuine is made by DAVID BUGBEE, who is the only authorized agent for Bangor.

IMPORTANT MEDICAL NOTICE.

DR PETERS has REMOVED from Endicott street to No 13 Wilson's Lane, BOSTON a few steps from Dock Square—where he can be consulted in all cases of Diseases of a delicate nature. Dr Peters has been in practice in Boston for the last seven years and is now acknowledged to be the most experienced Physician now advertising for the cure of certain maladies. His cures are unlimited—his knowledge of delicate diseases unbounded. he spares no pains or expense to relieve those who honor him with their confidence.

In Scrofula,

his experienced eye at once, discovers the state and cause of the evil, without first experimenting to ascertain the location of the disease, as do Quacks and Nostrum venders. He perceives the difficulty at once, and applies the right remedy.

In Chronic Affections

of the Bladder, he is always sure of performing a perfect cure—having a perfect knowledge of the organs affected and the proper medicine to be applied.

In Gonorrhea,

a single glance enables him to ascertain the precise state of the disease, and to apply his never-failing remedies to the particular parts, and the complaint will disappear in a short time after the application, never to appear again.

In Syphilis,

his medicines stand in the foremost rank of the medical world—removing the disease from the system, no matter of how long standing or difficult it may be.

Also, the following diseases come under the special care of Dr Peters—viz Kings Evil—Salt Rheum—Tetter—Cutaneous Affections—Seminal Weakness—Nocturnal Emissions, superinduced by secret bad habits when young, &c &c.

To Females,

Dr Peters would say that he has a perfect knowledge of their systems, and can warrant them a perfect cure from all complaints peculiar to their sex. The following are a part of the complaints which come under his particular notice—viz Suppression, Irregularities of the Menses—Whites—Pains in the Back and Sides—Falling of the Womb—Green Sickness, &c &c.

N B Persons at a distance can consult Dr Peters by letter, post-paid, describing their complaints, and enclosing a remittance. Direct "Dr Peters 13 Wilson's Lane, Boston, Mass." Medicines can be sent by Express to all parts of the United States and the Canadas.

To Seamen,

Dr Peters would say that his medicines can be taken at sea, and are peculiarly fitted for their use, being concentrated into a portable and compact form. If those who are about taking medical advice, will call upon Dr Peters, he will give them ample proof of his abilities to perform a perfect cure, however intricate their case may be. d1m oct. 15

### Joy to the Afflicted!
DR SEARS'S justly celebrated GOOD SAMARITAN, or PAIN-CURER—for external and internal use.

THE proprietor has been in the habit of dealing out medicines for the last eighteen years almost daily and he thinks he has been a close observer of their action on the human system and he finds his Pain Curer to be unsurpassed by any for the cure of pain either externally or internally. As such he offers it to an impartial and enlightened public—and he only asks for it that mead of praise to which the afflicted shall find it entitled.

This purely vegetable medicine, manufactured by the proprietor, Dr J B Sears, is offered at wholesale or retail by G F SARGENT, No Went Market Place, and SILAS ALDEN, No Main street (under the Hatch House), only agents for Bangor. 1m sept 9

### DR. LEIDY'S
## Blood Pills.
THE TRUTH—the whole Truth and nothing but the Truth!—attested by thousands of respectable citizens! Dr Leidy's SARSAPARILLA BLOOD PILLS ENTIRELY VEGETABLE are the best, safest and most effectual purgative of the Stomach and Bowels, and purifier of the Blood and Fluids of the Body known.

YOUNG AND OLD MALE AND FEMALE can take them with equal safety requiring no change in living restraint from occupation or fear from exposure to all kinds of weather while taking them.

DR N B LEIDY
Proprietor and Manufacturer of the only genuine SARSAPARILLA BLOOD PILLS.

is a regular Druggist Chemist and Apothecary. A regular Physician, Graduate of the University of Pennsylvania, member of the Philadelphia Medical Society &c, attested by Drs Physick Chapman Jackson James, Dewees Hopper Gibson Coxe Parish, Betton Rev W H Delaney, R Adrian L L D, J L Biddle Esq, &c &c, all now or lately, of Philadelphia.

Be it known therefore that Dr Leidy would not hazard his reputation, or dishonor the profession or institutions to which he belongs, by offering to the community either Pills or other Medicines that did not possess the virtues he attributes to them, and therefore knowing the efficacy of his Sarsaparilla Blood Pills does not hesitate

TO PROCLAIM TO THE WORLD

that if his Pills will do no good either as a purgative of the stomach and bowels or purifier of the blood, then no others will because they contain all the virtues that can be combined in Pills and will be found more efficacious at all times than any others.

## Alkaloid Xabot,

FOR CLEANSING TEETH.

IT the preparation of this article there is both no mineral which will prove in the slightest degree injurious to the structure of the teeth, as the chemical components preclude the possibility of injury to any of the most delicate enamel fibre portion without. From its alkaline principle it generally dissolving fluids of the mouth whether arising from acid eructations of the stomach or the decomposition of food collected about the interstices of the teeth and gums by its removal, prevents the disagreeable odor of tartar causing the teeth to become clean so fade, free from the usual stain at the junction of the gums common to the use of the various dentifrices now in vogue, removing from the breath the unpleasant odors usually attending the above disease.

## FOR THE PILES!

### A Cure for Life Secured.

*For the cure on Piles, Inflammation of the Liver and Bilious Affections, Dyspepsia, Sour Stomach and Heartburn, Scalded Head, Enlargement and Irritation of the Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Bloody Weakness and Inflammation of the Stomach, and for the cure of Nervousness.*

THE VEGETABLE PILE ELECTUARY, invented by Dr A Upham, a Distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint the Piles, ever offered to the American public

Mark this Indian INTERNAL REMEDY—not an external application, and will cure any case of Piles, in the bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it It is a positive cure—speedy and permanent It is also a most unrivalled medicine to take, and improves the general health in a remarkable manner

Each box contains twelve doses, at $1 a box per dose. It is very easily to its operation, and may be taken in cases of the most extreme inflammation without confinement — All extreme applications are in the highest degree disagreeable, inconvenient and offensive; and from the very nature of the disease, unnecessary in three cases out of five Because, the disease is the effect, and REMOVING NOTHE CAUSE, renders the cure LESS PERMANENT

### *INFLAMMATORY DISEASES*

Although a SELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine for superior to all others, in all diseases of an inflammatory character, such as debilitated or cold stomach, particular pain or organs, to inflammation and congestion of the Liver and Spleen, Inflamat on, Soreness and Dullness of the Stomach, Colic, Kidneys and Bladder, in Rheumatism, and mercurial Rheumatism, it is the *Best* ever discovered

### *IMPURITIES OF THE BLOOD*

Per all impurities of the Blood arising from the improper use of Mercury, or other causes, for all diseases of the Skin and Scrofula in all cases where the blood is powerfully depraved and tainted, producing disease and distress DR UPHAM'S ELECTUARY is entirely unrivalled

### *TO MARRIED LADIES*

Married females who are subject to that painful and distressing disease, the PILES, with reserve quest, inflamation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head &c &c, will find it a perfective help for them. It safe and, and has been useful in chronic and many painful cases, in all will not only remove the Piles and all its attendants, but cause WITHOUT PAIN or HEAT TION, out it acts in easy time, safe to invert, and a good constitut on to the offspring

### *CURE FOR LIFE GUARANTEED*

The Electuary contains NO MINERAL Endorsed no Alum, Cayenne Gamboge or other powerful and irritant ingredients No fear of taking cold while under the influence, to change in diet necessary Heal ken seen dieting to the directions, A CURE FOR LIFE IS GUARANTIED

### *GREAT SUCCESS OF UPHAM'S* FILE ELECTUARY.

Portland Me, March 24, 1846

Dr Bradlee—My Father-in-Law cannot express in too high a terms the benefit he has received from the use of Upham's Pile Electuary. I have been a witness to the astonishing Pile Electuary, and can testify that it has completely relieved him from the pain of the disease, and restored him to health. The Surgeons of this city have declined all kinds of medicine, and I think, from the decision and action and the place could left incapable of performing any kind of work, and in a very feeble condition. I had been a perfect stranger to the Pile Electuary, at the suggestion of my father-in-law, was induced to buy a box of your medicines. The first dose was to me a very slight, and I persevered, and in a short space of time found myself getting well, till kept on, and now I am well man. My father-in-law no longer considers his days numbered, but feels thanks that I am once more restored to health and can look forward to happy many days, to enjoy our society.

## THE GRAEFENBERG P ILS.

THERE ARE THE MOST CONSCIENTIOUS REASONS why that class of Medicines denominated "PATENT," should be made the means of incalculable and enduring blessings to the human family Suppose, for example, that a high order of talent, long and sagacious observation, and great medical learning and experience are brought to bear upon the invention and manufacture of a PILL Why may not this long devotion to the duties of medical life also be crowned with the success that attends the exercise of similar talents and toil in all other things? There is no reason, and it is but the logical deduction of this simple common sense to say, that a Pill thus produced will be as perfect an article as can be made by man *Twenty-five years' devotion* to any one subject will give a man of ability the mastery over it This labor has been bestowed upon the

## Graefenberg Vegetable Pills

and they are presented to the public with claims unparalleled in the whole history of medical science

It will be seen, on tracing the history of all great inventions, that they were not made or discovered until the arrival of what may be termed the FULNESS OF TIME The mariner's compass, for instance, was not invented until in the "fullness of time" it was needed Each one of the discoveries of ancient days, had never been known except a wonderful and unerring guide was transmitted to his silent bosom, until the Divine appointed time drew near when distant continents and islands were to be revealed, and B held it new transferred to the bosom of the adven turous sailor, enabling him to launch far away upon unknown Oceans, instead of timidly sailing within sight of familiar land marks!

So with the discovery of the New World, upon whose shores was to arise this Giant Nation to a power, a glory, a wisdom far beyond the conception of the wild and fanciful Old World—the world had reached its highest duration by the "fullness of time" drew near for the revelation of its New, and behold the immortal Columbus! from the forcastle of his drenched and leaky vessel, found, it by night the welcome morning of a new day, of the long neute telegraph Each of these had its own "fullness of time," marked, distinct and Providential

THE MEDICAL SCIENCE HAS COME TO GREAT PRACTICAL PRINCIPLE IS EQUALLY MARKED Most beautiful are the illustrations and proofs of this which are to be found in the history of the world We can trace them from the Mosaic dispensation down to the present hour; all of them teaching us the lesson and giving us the hope that *something yet better* to heal human misfortunes is at hand

## Dr. Townsend's SARSAPARILLA,

*The Most Extraordinary Medicine in the World!*

This extract is put up in quart bottles, it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening, or debilitating the patient

The great beauty and superiority of this Sarsaparilla over all other medicines, is, that it eradicates diseases it invigorates the body It is one of the very best Spring and Summer medicines now in use, not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine And in the hue the grand secret of its wonderful success It has performed within the past two years, more than 25,000 cures of severe cases of disease, at least 6000 of these were considered incurable More than

3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
2500 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
8000 cases of Consumption,

and thousands of cases of diseases of the blood, viz — Ulcers, erysipelas, saltrheum, pimples on the face, &c, together with numerous cases of a chronic headache, pain in the side and breast, spinal affections, &c &c

This, we are aware, must appear more than incredible, but we have letters from physicians and our agents from all parts of the United States, informing of extraordinary cures Read what Mr Buskirk, Esq., one of the most respectable druggists in Newark, N J, informs me that he can refer to more than 150 cases in that place alone There are thousands of cases in the City of New York which are well known and can be referred to with pleasure, and to men of character It is the best medicine for the preventative of diseases known. It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it reveals the seeds of disease, and prepared them for the summer season

Capt. G. W. McLean, of the United States Navy, and member of the New Jersey Legislature, has kindly sent us the following certificate It tells its own story

RAHWAY, Jan 2, 1847

A year since I was taken with the influenza and by which system left in a debilitated state I was induced to try Dr Townsend's Sarsaparilla, and after taking two or three bottles, I was very much relieved, and by the time it had been used for a month I was entirely well. I have since used it in my family in cases of debility, and find that I never experience any unpleasant consequences, and I do believe from its effects upon myself and family, that it is a valuable and extraordinary discovery, and well known for most coughs and all complaints of the throat and lungs and a most excellent blood purifier

In regard to the *Nymph Soap, Hair Dye Restorative, Paste Depilatory Powder and Shaving Cream* I say that I have used them and literally commend them, and it is a real luxury to use them Yours &c
